

TB Prevention in the HIV-infected Patient: Screening, Testing, and Treatment of Latent TB Infection

understanding **Author:** Curry International TB Center

Publication Date: 2011

Country of Origin: United States

Format: Online Course

Physical Description: 2 Modules; 5 Lessons. (Each lesson is 20 minutes or less in length.)

Language: English

Abstract:

This online course, which includes slides, audio narration, and interactive questions, provides information on how to screen, test, and treat human immunodeficiency virus (HIV)-infected patients for latent tuberculosis infection (LTBI). TB and HIV experts from the Western Region wrote and presented the case-based lessons in this course.
